GSB NEWS  
19.01.2022

**Dear members of the GSB,**

today you receive the new edition of the Quality Regulations, which we have adapted for you to the resolutions of the general assembly.

Best regards from Düsseldorf

Your GSB Team

## The New Edition of the Quality Regulations

During the general assembly on 5.10.2021 in Leipzig, all amendments to the Quality Regulations were accepted unanimously and without abstentions. The Quality Regulations have now been adapted accordingly.

There will again be free online briefings on the new version of the Quality Regulations. These will cover all the changes in detail and also provide a beginner-friendly overview. You will receive the dates for the briefings shortly via the GSB NEWS.

By clicking on the following link you will be taken directly to our Quality Regulations: [LINK](#)

Planning Assistance for Architects and Façade Designers

Structure	Pre-treatment Chemicals	Galvanizers
Coating Material	Coater (AL)	Coater (St)
The Quality Seals		

### Structure

Welcome to the section of the Quality Regulations

Our Quality Regulations have 7 parts, Part 1 and 2 are relevant for all member companies.

In addition you have to select the part of the Quality Regulations that is relevant for your type of company.

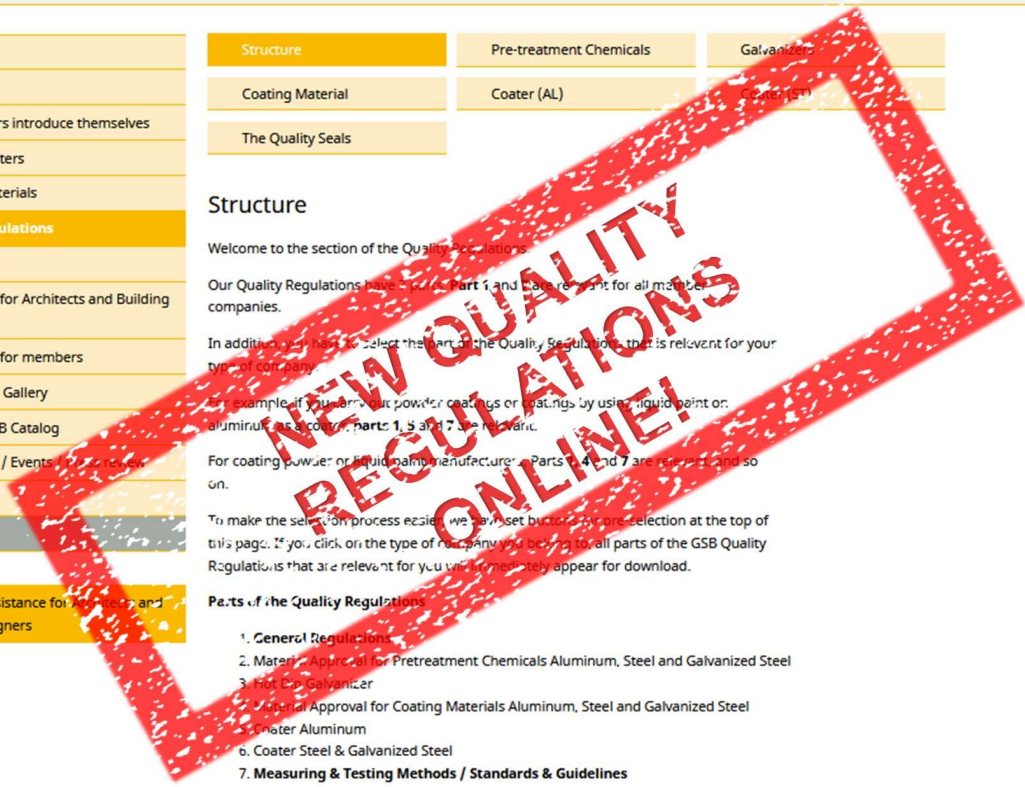

For example if you carry out powder coatings or coatings by using liquid paint on aluminium as coater, parts 1, 5 and 7 are relevant.

For coating powder or liquid paint manufacturers, Parts 4 and 7 are relevant and so on.

To make the selection process easier, we have set buttons for pre-selection at the top of this page. If you click on the type of company you belong to, all parts of the GSB Quality Regulations that are relevant for you will immediately appear for download.

#### Parts of the Quality Regulations

1. General Regulations
2. Material Approval for Pretreatment Chemicals Aluminum, Steel and Galvanized Steel
3. Material Galvanizer
4. Material Approval for Coating Materials Aluminum, Steel and Galvanized Steel
5. Coater Aluminum
6. Coater Steel & Galvanized Steel
7. Measuring & Testing Methods / Standards & Guidelines

## Technology

Katrin Schleicher is looking forward to your suggestions for topics and questions around the field of **technology**:
