GSB NEWS  
16.12.2022

Dear members of the GSB,

now it is time again. The year is coming to an end and we would like to take this opportunity to thank you for your outstanding cooperation and the successful year 2022.

Yet 2022 was anything but easy. It was challenging all around. The Corona pandemic remained an ever-present concern, although this factor of uncertainty was not matched by the level of tragedy we experienced in 2021. Added to this was the Ukraine war and the related energy price crisis. "Crisis management" remained a term unfortunately used far too often - yet appropriately - throughout the year.

Nevertheless, everyone came to terms with the manifold uncertainties in order to navigate as safely as possible through the turbulent times. But despite all the adversity, those times also had their good points. The industry moved closer together and people helped each other wherever they could.

In addition, one was again able to enjoy regular attendance events. Something to look forward to in the coming year as well, because our General Assembly on 24-25 April 2023 in Nuremberg is a special highlight.

Now it's time for the relaxing time of the year and we wish you and your loved ones a Merry Christmas and a Happy New Year.

Until **21.12.2022** we are available for you as usual. From **2.1.2023** we will be there for you again.

We would like to thank WEINISCH GmbH & Co. KG for coating our logo as part of the competition which was organised within the framework of our general assembly.

---

## Editorial Office

Philipp Mader is looking forward to your questions and suggestions concerning the GSB NEWS:
