### Information Provided by Manufacturers of Pretreatment Chemicals and Coating Materials

For the quality assurance of the entire supply chain, it is important that all parties involved have the latest technical information.

If you, as a manufacturer of pretreatment chemicals or coating materials, send technical information about your systems to one or more GSB-certified coating companies, we would like to ask you to also forward this information to the GSB office.

---

### Tests of Coating Materials: Sealant Adhesion Test is not Performed for the Time Being.

**Sealant adhesion testing is currently suspended as part of the system approvals.**

Within the context of the general meeting will be proposed, not to perform the sealant adhesion test as part of the system approvals in the future. The reason for this is that sealants are increasingly being replaced by other different solutions.

## General Assembly

As things currently stand, the general assembly will be held as a face-to-face event thanks to a comprehensive hygiene concept that we have drawn up in cooperation with the WestIn Hotel Leipzig.

We look forward to welcome you on **4 & 5. October 2021 in Leipzig.**

BEITRÄGE IGTV GESPEICHERT MARKIERT

The grid contains six posts:

- Top-left: A modern building with a red facade and the text "HAMBURGISCHE STAATSOPE" above the entrance.
- Top-middle: A close-up of an industrial robotic arm with a blue laser line, working on a perforated metal plate.
- Top-right: An aerial view of a city skyline at dusk, featuring a prominent yellow skyscraper.
- Bottom-left: A white Easter egg with the GSB logo on it, set against a black background with the text "Happy Easter" in gold cursive.
- Bottom-middle: A view of a modern building with a large glass facade, reflected in a pool of water.
- Bottom-right: A GSB International logo with the text "GSB INTERNATIONAL" and a red box containing the text: "GSB International was founded in 1977. At that time, powder coating was still new to the architectural market and the aim was to establish a reliable quality standard." Below this is a red box with the hashtag "#fridayfact".

The number of followers of our social media channels is growing unstoppably. For example, content from our member companies regularly generates a four-digit number of views on LinkedIn.

→ We are looking for pictures of your GSB-related activities (finished projects, such as buildings, coated components or also pictures from the production).

→ Additional information on the pictures would be helpful (e.g. location of the building, used coating powder, etc.).

→ The images must be authorized for use by GSB (if necessary, permission must be obtained from third parties involved, such as photographers, architects, etc.).

→ If persons are shown on the images, they must have given their consent in accordance with the GDPR.

→ The images should be of high quality.

→ The submitting company will of course be quoted as a reference when published. If available, the company's existing social media channels will be linked.

→ Please address your submissions and also questions on the topic to Philipp Mader: [philipp.mader@gsb-international.de](mailto:philipp.mader@gsb-international.de)
