GSB NEWS
11.11.2022

Dear members of the GSB,

hasn't this been an exciting autumn?

We were present for you at various events - always on the mission of quality assurance.

As always, we wish you a lot of fun while reading today's event special!

Your GSB Team

Young GSB

On 17 and 18 October, our third Young GSB Meeting took place in Berlin. Young professionals work on future projects revolving around quality assurance according to the GSB Quality

Regulations within the framework of the working group.

The interdisciplinary exchange is particularly appreciated, because the working group offers the unique opportunity to get input from all parts of the coating process chain. Besides manufacturers of pretreatment chemicals and coating materials as well as coating companies, even testing institutes and system houses are represented.

The Board and the Quality Committees highly appreciate the input of the working group. The Young GSB takes an unbiased view on the topics and is thus a sure guarantee for innovative and fit-for-future solutions.

ALUMINIUM 2022

The ALUMINIUM 2022 was on the agenda from 27 to 29 September. As always, we were present with a booth for you. Countless member companies took the opportunity to present their impressive exhibits at our Surface Designing Area.

Werner Mader (Managing Director, GSB) and Rolf Weber (Member Quality Committee Steel) at the GSB booth

Booth GSB International e.V.

Philipp Mader (Marketing Manager, GSB) during his presentation at the ALUMINIUM CONFERENCE 2022. During the presentation, he presented the quality assurance according to the GSB Quality Regulations and explained why superior quality is an important aspect of sustainability.

The fem Forschungsinstitut Edelmetalle + Metallchemie Celebrates its 100th Anniversary

Shortly before ALUMINIUM 2022, we had the honour to be part of the celebration of the 100th anniversary of the fem Forschungsinstitut Edelmetalle + Metallchemie.

We would like to take this opportunity to congratulate Dr. Zielonka on more than 30 years of successful management of the institute. He is now entering a well-deserved retirement and handed over the leadership of the Institute to Prof. Dr. Kaßner during the celebrations.

We look forward to many more years of successful work together with the fem!

Editorial Office

Philipp Mader is looking forward to your questions and suggestions concerning the GSB NEWS:
